

Le Pantone[®] Matching System est le standard de l'industrie en matière de sélection des couleurs d'imprimerie. Cette grille de couleurs offre une méthode fiable pour sélectionner, spécifier, et mettre des couleurs en correspondance pour tous les outils de traitement possibles. C'est le meilleur moyen de garantir la conformité des couleurs lors de travaux d'impression. Cette grille de couleur peut varier légèrement selon le moniteur vidéo utilisé, mais offre un moyen fiable pour sélectionner les couleurs. Si une correspondance très précise des couleurs est nécessaire, un véritable nuancier Pantone imprimé est nécessaire. [Contactez-Nous](#).

What is a PMS color?

PMS stands for Pantone Matching System. This is a color system developed to help designers and printers get matching color results. For instance, often times a company's logo will have a specific blue such as PMS 280, which is a navy blue. Designers and printers will know what blue that is and what your corresponding design elements should look like, so your message is uniform in look and style. Just tell them your logo is PMS 280. [Contact us](#).

Remember, that your computer monitor will not accurately display colors and should not be used to choose colors where matching is critical. A range of Pantone Books are available for purchase from most artist supply shops, and is an essential requirement for any form of printing, graphic or design work, we definitely recommend you purchase one.
